

## Notice of Community Meeting

### St. Clair Battery Energy Storage System (BESS)

September 30, 2025

Dear St. Clair Resident,

You are invited to attend a community meeting to learn more about Skyline Energy's proposed St. Clair Battery Energy Storage System (BESS) project. This meeting is an opportunity to receive more information about the project, ask questions, and share your feedback with the project team.

#### Meeting Details:

Project Name:	St. Clair BESS
Project Details:	See Exhibit 1 to this notice <a href="https://skylineenergybess.com/stclair">skylineenergybess.com/stclair</a>
Proponent:	Skyline Energy
Date & Time:	Friday, October 17, 2025 – 6:00 p.m. to 8:00 p.m.
Location:	Moore Sports Complex - Hall 1 1166 Emily St, Mooretown, ON N0N 1M0
Contact:	<a href="mailto:communityengagement@skylineenergybess.com">communityengagement@skylineenergybess.com</a>

Skyline Energy is committed to engaging with the community and ensuring residents have the opportunity to participate in discussions about this project.

We encourage all interested residents to attend and look forward to your input.

Sincerely,  
Skyline Energy

**EXHIBIT 1 to Notice of Community Meeting  
PROJECT DETAILS**

<b>Project Name:</b>	St. Clair BESS
<b>Proponent:</b>	Skyline Energy ( <a href="https://www.skylineenergybess.ca/">https://www.skylineenergybess.ca/</a> ) - Skyline Energy is part of the Skyline Group of companies. Skyline Energy has over 80 renewable energy facilities in towns across Ontario. The Skyline Group owns over 300 commercial, industrial and residential properties.
<b>Project Location:</b>	469 Polymore Drive See Figure 1 (General location)
<b>Project Type:</b>	Grid-connected battery energy storage system using lithium iron phosphate (LFP) battery technology
<b>Size:</b>	120-200 MW (8-hour duration storage); approximately 16 acres
<b>Interconnection:</b>	230kV Hydro One Circuit
<b>Purpose:</b>	Provide much-needed capacity support to the Ontario grid in response to the Long Term Procurement plan of the Independent Electricity System Operator (IESO). Learn more about the need for BESS and the IESO plan at: <a href="https://www.ieso.ca/Sector-Participants/Resource-Acquisition-and-Contracts/Long-Term-2-RFP">https://www.ieso.ca/Sector-Participants/Resource-Acquisition-and-Contracts/Long-Term-2-RFP</a>
<b>Scope:</b>	Skyline Energy will build, own, operate, maintain and ultimately decommission a BESS that will be under a 20-year contract with the IESO
<b>Safety and Compliance</b>	Meet or exceed all applicable standards, including fire safety (NFPA 855 and UL 9540A destructive testing protocols), electrical safety (including standards set by the Electrical Safety Authority and the IESO) and all applicable local zoning and by-laws.
